The McCallister family is out of the house and little Kevin is left home alone to guard the fort. Unfortunately for Kevin, Marv and Harry have taken a keen interest in his family's valuables. He must do everything in his power to escape from being captured by the bungling Wet Bandits.

Kevin knows that the police are on the way and all he has to do is hold out for 20 minutes. He'll sprint through the multiple levels of the house, basement and tree-house all the while setting nasty booby traps for the uninvited burglars. There are even a few secret hiding places that enable Kevin to temporarily dodge the bad guys. All this and more await you within the McCallister house . . . but you too will be Home Alone!

Control Pad Functions:

A Button - Press to collect a "Trap" item. When you have an item in your possession, it flashes in the lower left hand corner of the screen.

B Button - Press to put down and set a trap.

Select Button - When Kevin is carrying more than one item, press Select to view the choices. The most currently collected item appears on the screen. Kevin can carry a maximum of three traps at a time.

Start Button - Press to begin the game. Press during the game to pause and view the locations of the traps that Kevin has set as well as Kevin's location in relation to the house, basement and tree house. Near the bottom of the screen is your score and the time remaining before the police arrive. Press any other key to resume the play of the game.

Left and Right - Moves Kevin in these directions. Press diagonally, (Up and Right, Down and Left, etc.) to make Kevin walk up or down a flight of stairs. You can also use Left or Right to jump from the window to the gutter, or from the window to the rope, on the top floor.

Up - Press to climb objects. Holding Up on the control pad when Kevin is in front of a hiding place conceals him from the burglar's view. This only works if there are no burglars in the room when he makes this maneuver. The bandits will keep searching for Kevin, so hiding in one place for more than two searches is not recommended.

Down - Moves Kevin down an object he is climbing. Press when standing above a chandelier while pressing the A (pick up) button to drop it on Marv or Harry! (This only works if Kevin is carrying less than 3 objects.)

The game begins with Kevin in the main foyer of his house. Marv and Harry can enter from one of four entryways. Kevin's objective is to evade the burglars until the police arrive. He has 20 minutes to accomplish this task.

But are two enemies not enough for you? This game may surprise you! Both Marv and Harry are extremely intelligent villains, in that they are modeled with actual human behavior. Being "smart" enables them to track Kevin down in a way that is unique to the Nintendo Entertainment System library of enemy characters.

They will systematically search throughout the McCallister house for clues to Kevin's whereabouts such as noises and direct visual contact. This is why using a hiding place may only be successful temporarily. While there are many strategies, the truly successful player will balance hiding, setting traps and all out running to stay out of the reach of these Bright Guys!

Kevin can carry up to three traps at a time. It may be best to keep at least two traps on hand at all times.

Some traps delay the bandits longer than others. The chandeliers are the best (longest down time), while the soup cans are the worst (shortest down time). Kevin is particularly vulnerable while he's using the stairs, so keep a long down time trap with you in these areas.

Each trap can only be used for a limited amount of times before they vanish. Be sure to reset a trap that has been used, or Marv and Harry will walk right past it.

Each trap is valued as follows:

| Object | Points |
|------------|-----------------|
| Soup Cans | 200 |
| Soap | 200 |
| Xmas Bulbs | 200 |
| Nails | 200 or 800 |
